ABOUT ACOM

The Alabama College of Osteopathic Medicine (ACOM) is a four-year osteopathic medical school located in Dothan, Alabama. As the academic division of Southeast Health, the private, non-profit college was founded in 2010 to help address the primary care physician shortage in Alabama and the surrounding region. ACOM was the third medical school and first osteopathic college in the state. ACOM's first class graduated in 2017, and to date, more than 60% of its nearly 740 graduates are pursuing primary care.
